

Northstar Security and Finance Policy

Access Control

All workforce access uses SSO and MFA. Admin access is reviewed every 30 days. Contractor tokens expire after 14 days unless Security grants a written extension.

Data Classification

Northstar data classes are public, internal, confidential, and restricted. Restricted data includes payroll, SSN, medical, and immigration records. Restricted data must be stored only in VaultLake.

Expense Policy

Client meals are capped at USD 75 per person. Receipts are required for expenses over USD 25 and must be submitted within 5 business days. Air travel defaults to economy class.

Vendor Review

Any vendor that handles customer data requires a security review, a signed DPA, a risk tier, and a named procurement owner before launch.

Incident Response

P0 incidents require response in 15 minutes, P1 incidents in 1 hour, and P2 incidents by the next business day. Postmortems are due within 5 business days.

Retention

Audit logs are retained for 365 days. Payroll records are retained for 7 years. Support tickets are retained for 24 months unless Legal places a hold.
